About the Predator

The stylish side console adds a greater level of comfort that enables the Predator to appeal to the family and the fisherman alike. Carpeted floors and upholstered seats together with the casting platforms for and aft make it a very versatile boat.

"Stylish and tough, the Predator from Blue Fin Boats was found to convert extremely well to the tournament style but wasn't limited to just this style of fishing. 3mm plate side alloy bottom and sides with 22 ribs and a wide gun'l shows that this boat is built tough.

It is certainly overbuilt for an estuary fishing machine with 400 kgs of dry weight hull but it would have to rate as the most rigid boat in its class." (Mark Ward - Fishing World Great Boat Guide).
